**INSIDE ELECTRICAL INSPECTION CHANGES AS A RESULT OF COVID-19**

Due to the ongoing concerns and restrictions as a result of the COVID-19 pandemic, please refer to the following protocol for electrical inspections, or portions of inspections inside occupied dwellings or buildings effective 4-1-2020. These requirements will only be in effect until DCA regulations are lifted.

1. Letter of Compliance.

Mail to us a letter from the electrical contractor with the raised seal, certifying that the work was performed in compliance with the NJ UCC and the NEC as adopted by the NJ UCC. Also, that all AFCI and GFCI devices passed a function test (test button).

2. Pictures.

As allowed by the DCA, I will accept pictures in occupied buildings showing the various stages of electrical construction activity for inspections. These pictures may be printed out (and mailed into the twp. building) or emailed to [rwolfer@eastgreenwichnj.com](mailto:rwolfer@eastgreenwichnj.com). They need to show the complete scope of work that would be inspected. These pictures should include supports, terminations, breaker/fuse sizes, required labeling, etc. The email should be labeled with the address, homeowner name & permit number.

Please understand that this is an unprecedented and ever changing environment that we are all trying to work in. As such, guidelines and mandates from the state or local level may change without notice.
